## AMENDMENTS TO THE SPECIFICATION

Please replace Paragraph [0031] with the following paragraph rewritten in amendment format:

[0031] As shown in Fig. 6, the handle 50 is swung from the body 48, which is disposed in a recess 62 in the body 22. As shown in Fig. 7, the body 48 can be pulled from the D-shaped recess [[68]] 62 (shown in Figures 1 and 2) and the handle can be operated to turn the extension 46, which turns the shaft 38, which in turn winds or unwinds the anchor cord 32 on the reel 26. When the reel 26 is in the desired position, the handle 50 can be folded back into the body 48, and the body can be pushed back into the recess 62.
